

Computing Students Society (CSS)

Summer Bootcamps 2026

Track: Web Development

Week 1 – Assignment 1

HTML Personal Portfolio Website

Assigned On: Week 1 (HTML Session)

Deadline: Friday, 11:59 PM

Objective

The purpose of this assignment is to assess your understanding of the HTML concepts covered in Week 1. You will build a complete Personal Portfolio Website using HTML only.

Note: CSS and JavaScript are not allowed in this assignment.

Assignment Requirements

1. Header

- Full name
- Professional tagline
- Profile image

2. Navigation Bar

- Home
- About
- Skills
- Education
- Projects
- Contact

3. About Me

Write 150–200 words covering who you are, educational background, interests, career goals, and why you joined the bootcamp.

4. Skills

Create an unordered list with at least 8 technical or soft skills.

5. Education

Create a table with Degree, Institute, Session, and CGPA/Percentage. Include at least three records.

6. Projects

Include at least three projects with project name, description, technologies used, and GitHub link/placeholder.

7. Contact Form

Include Full Name, Email, Phone, Subject, Message, Gender (Radio), Skills (Checkboxes), Country (Dropdown), Submit and Reset buttons. Use proper labels.

8. Footer

Include copyright, email, LinkedIn, and GitHub profile.

Mandatory HTML Elements

- Document Structure
- Headings
- Paragraphs
- Images
- Hyperlinks
- Ordered & Unordered Lists
- Tables
- Forms
- Buttons
- Divisions (<div>)
- Inline Elements ()
- Semantic Elements
- Line Breaks and Horizontal Rules

Bonus Tasks (+10 Marks)
